The essay's core theme revolves around Tan's mother's "broken" English and its ramifications on her own life and identity. Tan doesn't simply depict her mother's speech; she analyzes its implications, highlighting the ways in which societal perceptions of language can mold judgments about intelligence, competence, and even value. One frequently asked question is: What is the significance of the title, "Mother Tongue"? The title itself is multifaceted. On one level, it refers literally to the first language a person learns, usually from their mother.
