 - **Firing:** Aim carefully, and ensure the rifle is pointed in a safe direction. Squeeze the trigger smoothly to fire a round. The rifle will automatically cycle the next round from the magazine.
- **Unloading:** Once finished shooting, ensure the magazine is removed. Rack the action to ensure the chamber is clear. Visually inspect the chamber and magazine to confirm that no cartridges remain.

Remember, always treat every firearm as if it were loaded. Never point a firearm at anything you do not intend to shoot. This is crucial information that even a perfect Winchester Model 1904 manual cannot overemphasize.
