Arne Jacobsen UR Chair: Features & Variations

While there's no official "UR" model, the common misnomer refers to the Series 7 chair. This section details the key features and variations within the Series 7 range.

- **The Shell:** The most striking feature is the molded plywood or plastic shell, carefully crafted to provide both ergonomic support and visual appeal. This shell's curvature is key to its comfort and allows for seamless stacking.
- **The Legs:** The elegantly tapered legs, typically made of steel, provide stability and contribute to the chair's overall aesthetic. These legs are often available in different finishes, ranging from chrome to powder-coated colors, allowing for customization to suit various design styles.
- **Material Variations:** The Series 7 chair is available in a variety of materials, significantly expanding its versatility. This includes stained

plywood (offering a warmer, more traditional aesthetic), painted wood (allowing for bolder color choices), and plastic (offering a more modern and potentially more durable option). Each material influences the chair's overall look and feel, and understanding these nuances is crucial when making a purchase.

- **Regular Cleaning:** Dusting the chair regularly with a soft cloth or feather duster will prevent the accumulation of dirt and debris. For more stubborn stains, use a mild detergent solution and a soft sponge. Always avoid harsh chemicals or abrasive cleaners.

- **Wood Care:** For wooden chairs, consider using a suitable wood polish to maintain their finish and protect them from drying out. Always test the polish on an inconspicuous area first.
- **Plastic Care:** Plastic chairs are generally more resistant to damage but can still benefit from regular cleaning with a mild detergent solution. Avoid exposing plastic chairs to direct sunlight for extended periods, as this can lead to fading.
- **Repair & Restoration:** Over time, some wear and tear is inevitable. If your chair needs repair or restoration, it's advisable to seek the services of a professional furniture restorer experienced in working with mid-century modern pieces.
