Using Your Braun Contour Epilator: A Step-by-Step Guide

Before you begin, ensure your Braun Contour is fully charged (if cordless) and that you have the appropriate attachments ready.

1. **Prepare Your Skin:** Exfoliate your skin gently the day before epilation to remove dead skin cells and prevent ingrown hairs. This crucial step contributes to a smoother result.

2. **Choose the Right Speed:** Start with a lower speed, especially if you're new to epilation. Gradually increase the speed as you become more comfortable.

3. **Proper Technique:** Hold the epilator at a 90-degree angle to your skin, and move it slowly and steadily in the direction of hair growth. Avoid pressing too hard; let the device do the work. Avoid going over the same area repeatedly.

4. **Using Attachments:** Attach any necessary accessories, like the sensitive area cap or shaving head, according to your needs. This ensures efficient and safe epilation on different body areas. The Braun Contour user manual

provides detailed illustrations for each attachment.

5. **Post-Epilation Care:** After epilation, apply a soothing lotion or cream to calm any irritation. Avoid harsh soaps or fragrances. Avoid direct sunlight exposure on epilated skin.
